Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The information disclosure statement (IDS) submitted on 21 September 2007 was filed after the mailing date of the Notice of Allowance on 24 August 2007. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

The references cited on the information disclosure statement submitted on 21 September 2007 do not impact the examiner's original statement of reasons (mailed 24 August 2007) for allowance. In particular, the IDS references do not teach the subject matter of a power management circuit and the display circuit being connected together and arranged in a configuration that lowers the power consumption in a self regulating manner, in combination with the remaining features and subject matter of the instantly claimed invention.

Jeff Piziali 2 October 2007
